“We successfully completed several key initiatives this quarter, including the launch of our new online banking platform and the rebranding to Axos,” stated Greg Garrabrants, President and Chief Executive Officer of Axos. “We received regulatory approval to acquire deposits from Nationwide and announced an agreement to provide co-branded banking products to Nationwide’s associates and customers. Our opportunistic deployment of capital across a variety of strategic initiatives, including investments in business banking

and commercial lending verticals and our acquisitions of COR Clearing and Nationwide Bank's deposits will further diversify our lending and funding and position Axos to sustain solid earnings growth in 2019 and beyond."

"We repositioned our balance sheet in preparation for the pending transfer of deposits from Nationwide," explained Andy Micheletti, Executive Vice President and Chief Financial Officer of Axos. "We intend to repay approximately \$2.5 billion of higher cost borrowings using the cash generated from the deposits we are acquiring from Nationwide in mid-November."

Mr. Micheletti continued, "Non-interest expense for the quarter reflects higher amortization and depreciation costs, expenses related to Axos Fiduciary Services, deal-related expenses, and investments in rebranding, technology and personnel. Excluding approximately \$1.6 million of non-cash amortization expense and non-recurring expenses related to our merger and acquisition activity, our non-GAAP adjusted earnings and adjusted EPS are \$38.4 million and \$0.61, respectively."

The loan and lease loss provision was \$0.6 million for the quarter ended September 30, 2018 compared to \$1.0 million for the quarter ended September 30, 2017. The decrease in the provision is primarily the result of changes in loan mix and net recoveries of \$0.4 million.

For the first quarter ended September 30, 2018, non-interest income was \$16.5 million compared to \$13.3 million for the three months ended September 30, 2017. The \$3.2 million increase year over year was the result of a \$3.8 million increase in banking and service fees, \$2.7 million increase in gain on sale – other, due to a sale of lottery receivables, partially offset by a decrease of \$2.9 million in mortgage banking income, a decrease of \$0.4 million in realized gain on sale of securities. Non-interest expense or operating costs increased \$14.9 million to \$52.9 million for the quarter ended September 30, 2018 from \$38.0 million for the three months ended September 30, 2017. The increase was mainly a result of an increase in salaries and related expense of \$8.5 million as a result of the addition of staffing increases to support growth in to lending, deposits, trustee and fiduciary services, and data processing. Other operating expense increases include an increase in FDIC and regulator fees of \$1.8 million, an increase in advertising and promotional of \$1.5 million, an increase in depreciation and amortization of \$1.3 million, and an increase of \$0.9 million in other and general expense. Investment securities increased \$22.4 million primarily due to purchases of new available for sale securities. Use of Non-GAAP Financial Measures

In addition to the results presented in accordance with GAAP, this report includes non-GAAP financial measures such as adjusted earnings, adjusted earnings per common share, and tangible book value per common share. Non-GAAP financial measures have inherent limitations, are not required to be uniformly applied and are not audited. Readers should be aware of these limitations and should be cautious as to their use of such measures. Although we believe the non-GAAP financial measures disclosed in this report enhance investors' understanding of our business and performance, these non-GAAP measures should not be considered in isolation, or as a substitute for GAAP basis financial measures.

We define net income without the after-tax impact of acquisition related costs and excess FDIC expense as adjusted earnings ("adjusted earnings"), a non-GAAP financial measure. Excess FDIC expense is defined as the higher insurance costs associated with increased levels of short-term brokered deposits in anticipation of the acquisition of deposits from Nationwide Bank. Adjusted earnings per diluted common share ("adjusted EPS"), a non-GAAP financial measure, is calculated by dividing adjusted earnings by the average number of diluted common shares outstanding during the period. We believe adjusted earnings and adjusted EPS provide useful information about the Bank's operating performance. Excluding the acquisition related costs and excessive FDIC expense provides investors with an understanding of Axos' core lending and banking business.

Non-GAAP adjusted earnings for the three months ended September 30, 2018 and 2017 were \$38.4 million and \$32.4 million, respectively. Below is a reconciliation of net income to adjusted earnings and adjusted EPS (Non-GAAP):

Adjusted earnings (Non-GAAP)	\$ 38,418	\$ 32,390
Adjusted EPS (Non-GAAP)	\$ 0.61	\$ 0.50

We define book value adjusted for goodwill and other intangible assets as tangible book value (“tangible book value”), a non-GAAP financial measure. Tangible book value is calculated using common stockholders’ equity minus mortgage servicing rights, goodwill and other intangible assets. Tangible book value per common share, a non-GAAP financial measure, is calculated by dividing tangible book value by the common shares outstanding at the end of the period. We believe tangible book value per common share is useful in evaluating the Company’s capital strength, financial condition, and ability to manage potential losses. Below is a reconciliation of total stockholders’ equity to tangible book value (Non-GAAP):
